

How to Create a Team

1. Go to VancouverSunRun.com/register and click Create a Team.

2. Complete the Create a Team form, including Team Captain Information, team access code and team shirt information. Select whether team member registrations will be invoiced to the Team Captain, or if registrations will be paid for individually when a team member registers.

**Please note: Shirts are couriered to the address indicated by the Team Captain. The Team Captain will facilitate shirt distribution among team members.*

3. Click Submit when all information is entered. The Team Captain will receive an email confirmation of the created team. Participants can now join the team with the Team Access Code and the Team Captain can now manage the team.
